Biological Assay Package 26
SR1 (build 1043) | May
2019

Dear Max,

We released the latest version of our PLA 3.0 Split Assay Package (2.0.0 Build 19).

The PLA 3.0 Split Assay Package provides an additional feature to quantitative response assay documents. It enables you to split bioassays with more than one test sample into their respective 1-on-1 assays.

Splitting your quantitative response assays will be fast, secure and reliable. Different ranges for the standard deviation are possible (when using the range optimizer). The Split Assay Package is compliant with requirements for regulated environments.

We provide our latest version free of charge for our existing customers. [Download-Link](#)

If you have any further questions, please contact Tanja Farrenkopf our Sales Manager via [email](#).

Best regards
Mathias von Gellhorn
Marketing Manager
