PLA 3.0 Newsletter 03/2018

Meet us at the BEBPA 2018 EUR Bioassay Conference in Budapest (Hungary) or at the Immunogenicity & Bioassay Summit in Washington, DC

Budapest (Hungary), September 26-28
Washington, DC, October 22-25

We will have our biostatistical software package PLA 3.0 at our booth and are looking forward to meeting you there for interesting discussions about bioassay analysis. Feel free to discuss anything about your biostatistical applications with our expert team. You can certainly bring some data with you for in-depth consultation. Contact us in advance for individual appointments.

This will also be a great opportunity to take a first look at the new **Dose-Response Analysis Package** which will enrich PLA 3.0 in the near future as a free-of-charge add-on.

Few seats still available for the Open PLA 3.0 Training in Boston, October 2018

It's time to register now! Don't miss the opportunity to join our training courses in Boston. This will be our last training course for 2018.

Our Super User Training is a two-day class focussing on the implementation of your protocols within PLA 3.0. Learn about the secrets and power of the PLA framework and the statistical capabilities of the Biological Assay Package. The Super User Training will be followed by our science-oriented Advanced Analysis Workshop which covers the statistical capabilities of PLA 3.0 in more detail with a special focus on the efficient development of equivalence margins from your historical assay data.

PLA 3.0 Super User Training
Boston, October 9-10, 2018

PLA 3.0 Advanced Analysis Workshop
Boston, October 11, 2018

PLA Current Versions

- PLA 3.0.4 SR5 (build 761), **released September 3, 2018**
- Biological Assay Package 25 SR4 (build 999), **released August 3, 2018**
- PLA 2.1 (build 604)

Download the current versions from the [download section of our website](#).

Training Schedule 2019

PLA 3.0 Super User Training
PLA 3.0 Advanced Analysis Workshop

- January 7-9, 2019, Mumbai, India
- April 2019, San Francisco, USA
- May 2019, Frankfurt, Germany
- October 2019, Boston, USA

Registration for our training classes in Mumbai will be open soon.

Visit our website www.bioassay.de
for more information on PLA 3.0.
