What others said about the training

Very useful! I recommend that anyone using the PLA software should attend. It is amazing the power of the software – much more than I know. – Lauren L.

Very useful, especially if you have poor experience with this software. I really appreciated the exercise sessions. – Sara Longobardi

I really appreciate the quality of this training. It's very useful and it gives the bases to become a PLA 3.0 super user. – M.C.
