Next Trainings

June 17-19, 2019
Frankfurt (Main), Germany

Oct 07-09, 2019
Boston, MA, USA

Meet us at

Sep 18-19, 2019 | USP
Bioassay Workshop,
Rockville, MD, USA

Sep 25-27, 2019 | BEBPA,
Prague, Czech Republic

Latest Release

PLA 3.0.4 SR6 (build 762) |
Sep 2018

Biological Assay Package 26
(build 1031) | March 2019

Dear Max,

We hope you'll be able to join us in Frankfurt am Main, Germany in June for our this year's open European PLA 3.0 Training. We are going to teach you the most efficient way to work with PLA 3.0. You will be surprised at the difference this will make for your daily work with the software. To get the most out of your PLA software, register now for our PLA 3.0 Super User Training on June 17-18 and our PLA 3.0 Advanced Analysis Workshop on June 19. Don't miss out on this great opportunity to upgrade your PLA skills significantly.

What to Expect?

The PLA 3.0 Super User Training is a comprehensive training about the most important features of PLA 3.0 and how to work with them most effectively. The training is a mixture of presentation, exercises and discussion. It is valuable for both new and experienced users.

We offer the PLA 3.0 Super User Training as a 2-day training event for a small group. The small-group setting allows us to customize the training agenda to the individual requirements of the participants and to answer your specific questions.

To dive even deeper into the statistical analysis of your bioassays, we recommend that you also take the subsequent PLA 3.0 Advanced Analysis Workshop. You will learn how to use the specific analytical capabilities of the Biological Assay Package within PLA 3.0. This will also give you the opportunity to discuss your questions about PLA 3.0 directly with your trainer Dr. Ralf Stegmann, CEO and intellectual father of the PLA 3.0 software.

If you have any further questions, please contact Tanja Farrenkopf, our Sales Manager, via [email](#).
