Package 26 SR1 (build 1043)  
| May 2019

-----

PLA 2.1 (build 605 SR1) |  
Sep 2019

---

Dear Max,

We look back to our successful past training in Boston which was fully booked. We say thank you to all participants for the attendance at our training, for their active participation and the very interesting exchange.

For all those who also would like to familiarize themselves or who wish to get deeper into our PLA 3.0 software, we offer two kinds of PLA 3.0 Open Trainings in 2020. We designed our PLA 3.0 Super User Training as a 2-day training event and the Advanced Analysis Workshop as a subsequent single day training event. While the PLA 3.0 Super User Training focuses mainly on the workflow aspects and basic analysis tasks, the Advanced Analysis Workshop reveals much more in-depth details and exercises.

### Training Opportunities in 2020

- May 18-20, Boston, MA, USA - [Booking open](#) - Early bird available until April 03
  - May 18-19 [PLA 3.0 Super User Training](#)
