We limited the number of participants to ensure a highly productive working atmosphere in our small-group setting. Here is what others said about our trainings and workshops:

"The Super User Training provided a thorough overview of the new system in an easy to understand manner. Dr. Stegmann tailored the training to audience requirements, making it relevant, interesting and worthwhile. I will be able to use this knowledge to fully optimize how we use the software. This will be very beneficial for our laboratory. Thank you!" - Katherine Niedzwiecki -

"The training really helped to understand everything the software is capable of. The training teaches you step by step how to use the software more efficiently and it proves to be very flexible and adaptable to customer needs." - Esmeralda A. -

Don't miss out on this opportunity to upgrade your PLA 3.0 skills notably.
