[Analyze biological dilution assays based on a binary \(quantal\) outcome](#)

Dear Max,

Have you tried PLA 3.0.6? Our latest PLA Version provides the user with major improvements regarding the management of electronic data, database navigation, customer support, and security updates. One key feature is the attachment editor to export plots or add external files to the electronic document. Read more about PLA 3.0.6 here ([Link](#)).

You can evaluate and test PLA 3.0.6 for 14 days for free. The trial version of PLA 3.0 includes all the functionality required to analyze biological assays and most of the available add-ons.

If you have an active support contract, you can upgrade to 3.0.6 free of charge. And

anyone else who is interested, please request a quote for purchasing the PLA 3.0.6 software.

[Get your trial](#)

Download the setup file and install it.

[Download](#)

Please note: Previously installed version of PLA 3.0 will be removed, that's why we don't recommend a trial installation in your production environment.

If you have further questions regarding installation and testing, you can visit our PLA Help Center ([Link](#))

Best regards
Mathias von Gellhorn
Marketing Manager
