[Meet us in Rome at BEBPA's 15th Annual EUR Bioassay Conference](#)

Dear Max,

BEBPA's 15th Annual EUR Bioassay Conference 'Best Practices for the Best Potency Assays' is held as a Hybrid Conference on 27-29 September 2022 in Rome (You don't have a ticket yet? [Book here](#)).

As a sponsor, we will be in Rome. Visit our booth and talk to us about how PLA 3.0 supports the development and use of potency assays. Get an idea of how your company and your daily work can benefit

from our software solution.

Or are you looking for more information on our new Microbial Assays for Antibiotics Package? With this package, you can perform cylinder plate assays and turbidimetric assays (as described in the U.S. Pharmacopeia <81> and Japanese Pharmacopoeia Chapter 4.02) to determine the potency of antibiotics. Document the assay setup and the used materials, calculate the potency, and create a report summarizing your assay and its results.
