### Don't let your PLA Support Contract expire

Dear Max,

PLA is a software for regulated environments. In many cases, PLA is used in crucial areas of business. That's why we support you with our PLA Support Contract.

With an active PLA Support Contract you have:

- 2nd level support (statistical and scientific support by our team of mathematicians, biostatisticians, and (bio-)chemists)
- Priority support (high-priority support)
- Target response time one business day
- Updates & Upgrades to PLA and all add-ons
- Notification service

- Discounted training rate

The first year of your PLA Support Contract is included in every product purchase. Please note that it does not automatically extend by default. Before it expires, we will contact you and give you a quote for renewal. If you let your PLA Support Contract expire, most benefits are no longer included.

Best regards  
Mathias von Gellhorn  
Marketing Manager
